Me@AmericanFido.com

Summary:

I graduated from Indiana University where I earned a Bachelor of Science degree in Public Affairs, with a double major in Environmental Affairs and Administrative Policy Management.

My initial work experience, approximately nine years, was with Environmental Engineering Firms. I became a Registered Environmental Manager and performed large and small scale geologic investigations for contaminants, engineering supervision, and digital groundwater modeling. I created my own environmental consulting business and subsequently learned computer network administration, software development and, at that time, new internet programming languages. I became a fast learner and decided to change my career direction towards these new interests.

I then worked with IBM, and helped them roll out Merlin and Windows 95 at the Tampa campus. Since then, I have experienced over eighteen years of technology and learned web development and design techniques for print, video, and marketing to help Construction/Manufacturing Firms, Financial Institutions, Marketing Firms, International Engineering Firms, Printing Firms, Federal Governmental Agencies and Medical Software/Device Firms. My experience includes HTML, CSS, JavaScript with library applications such as jQuery, Angular JS and AJAX, PHP Scripting, Graphic Design, Video/Audio Editing and Compilation, SQL Server, MySQL, XML, Classic ASP, ASP.Net, and SharePoint.

Scripting Knowledge: PHP, CSS, JavaScript (jQuery/ Bootstrap/Angular JS/Node.js), HTML(5), CSS(3), XML, XSL, XSD, Jason, Facebook/LinkedIn APIs, DOM, Visual Basic, ASP.Net - C#, Classic ASP, SQL, TSQL, Stored Procedures, GIT and SASS.

CMS Knowledge: Drupal, WordPress, Magento, SharePoint, DotNetNuke, Sitefinity, Joomla, Expression Engine, eFront, and Moodle.

Web Server Knowledge: Microsoft IIS and Apache.

Database Knowledge: Oracle, Microsoft SQL Server, MySQL, and MS Access.

Software Knowledge: Dreamweaver, Flex, Fireworks, Director, Go Live, Photoshop, Final Cut Studio, Gimp, Premiere, After Effects, Illustrator, PageMaker, Autodesk, AutoCAD, Word, Excel, Numbers, Publisher, Power Point, SharePoint Designer, Keynote, Visual Basic, Visual Studio, and Lightwave 3D Studio Max. I have the ability to learn, and effectively use, software quickly.

Operating Systems/Networking Knowledge: Microsoft Active Directory & Server 2008/2012, Microsoft Windows 9x/NT/2000/XP/2003/2008/7/8/10, MAC 8.x/9.x/10.x, Linux Red Hat, Cisco Routers/Switches/Pix Firewalls, Novell Netware, IBM OS2 (Merlin), and DOS.

Marketing Experience: Social Media Marketing (Facebook and LinkedIn), Adwords Marketing, Brand Development (American Fido & Learn It Friday), SEO and Content Development.
